360 DEGREE FEEDBACKS

360-degree feedback, also known as “multisource assessment,” Scan give you full view of an employee’s knowledge and competency with the help of feedback of their self assessment and other suitable feedback providers. Such providers can consist of any combination of their managers, peers, even external associates such as clients which would be labeled as collaborators. Each participant in the 360 degree appraisal of a candidate completes their own separate copy of the same questionnaire. Then it requires the collation of all the responses into one report for each candidate.
